

# **NOTICE** **TO USERS**

**You might have seen the advertised Temporary Closure Notices at either end of Bridleway No.9 that were erected recently. The Notice indicates that the Bridleway will, from December 1<sup>st</sup> this year, be closed for 6 months. In practice - it will have times of closure and openness.**

**This closure is in place in order that an access road can be legally built out of the Bellway/Bloor development to the east of Bridleway 9 into the new development plot to the west of Bridleway 9.**

**The single access road will be the only crossing of Bridleway 9 and once the road is built the Bridleway will immediately be re-opened.**

**Thereafter, site traffic will cross the re-opened bridleway and will have a Banksman in permanent attendance at all times to ensure public safety while crossing the road.**

**The Temporary Closure allows the developer flexibility to legally close, if required, while keeping the way open as much as is possible.**
