

The Apprenticeship Levy

Is your school getting a return on their investment?

If you're a Governor for one of our Community or Voluntary Controlled Schools, then they'll have already been making monthly contributions of 0.5% of their wage bill to HMRC for the past year through their payroll provider.

CBC HR are pleased to announce that the process for our maintained schools to access and spend the levy has now been finalised and is available on the [schools' portal](#). There's some good news too...schools are able to spend more than they individually contribute!

There's apprenticeships to suit school heads, business/finance managers, office staff, IT technicians, teaching assistants, early years practitioners, laboratory assistants, cooks, caretakers and cleaners! Click on this [this link](#) to see what's available. Don't forget schools can also use the levy to upskill existing staff too.

Should you have any queries or need more information, please contact [Barbie Calvert, CBC Corporate Apprenticeship Manager](#).
